PALM SPRINGS-Last week an American couple came to the shop and out of the blue he asked me 'WHAT IS WITH THE RUSSIANS EVERYWHERE?'

I live in Palm Springs, California and I have noticed over the past few months Slavic-looking men which is very unusual. Last week I was working downtown in a small shop in Palm Springs, and there have had some Russians come in. When I asked them where they're from they vaguely said Los Angeles and didn't want to offer any more than that.

Last week an American couple came to the shop and out of the blue he asked me "WHAT IS WITH THE RUSSIANS EVERYWHERE?" which I said jokingly (but not really) "I don't know, maybe they're getting ready to attack us." He said "You know, that wouldn't surprise me. It turns out that this guy is a highly decorated Special Forces officer. He seemed highly concerned which confirmed to me what I have been thinking.

Another incident: a Christian friend of mine and I were sitting outside of a coffee shop downtown PS and were discussing the foreign troops here locally when she turned around and noticed two Russian-looking men sitting behind us who seemed to be very intent in listening to our conversation.

The last incident last Friday I was driving East on Hwy 111 towards , when I looked across the street and saw a soldier wearing a green uniform walking along the busy highway. His uniform did not look familiar and he had a green belt with a yellow square patch on his arm. It did not seem like an American troop or Security Guard uniform. I returned ten minutes later but he had disappeared. I had hoped to get a photo of him. I just wanted to pass this information on since I am getting a little concerned by these foreign soldiers- especially with what's happening with Russia and the US today.
